

ARAMID

3R123

Description

The 3R123 tape is made with Nomex/Kevlar yarns and a fiberglass inner core. It is an exceptionally rugged fabric that stands up to abrasion and is mildew resistant.

Applications

This tape is commonly used in places where abrasion resistance is important but temperatures are moderate. There may be applications such as hose covering, conveyor belting and cable insulation.

Specifications

Technical Data

Temperature	315°C (600°F)
Width	1" to 6"
Thickness	1/16"
