GARDPRO

GPRO11

Description

The GardPro 11 is a ceramic free and non-asbestos millboard composed of wollastonite fibers. Available thicknesses : 1/4", 3/8" and 1/2".

Applications

The numerous applications include : furnace construction, steel industry and foundries, non-ferrous metals industries, in electrical, thermal, chemical, pharmaceutical, aeronautical, automotive and naval industries and protection against electrical arcs, boilers, burners, dryers and shutters.

Specifications

Physical properties	
Color	Yellow
Composition	Wollastonite
Temperature	1100°C (2010°F)
Density	1.10 kg/dm ³
Thermal conductivity 400°C (750°F)	0.12W/m.K
Heat loss at 800°C (1472°F)	13%
Dimensions	1000 mm X 1000 mm
