FIBERGLASS

TXP1100SS

Description

This 100% "E-Glass", inorganic, sterile and non-combustable cloth is specially developed for high temperature insulation applications. The TXP1100SS has a 0.14 mm diameter stainless steel reinforcement.

Applications

With a low thermal conductivity (approx. 0.05 w/mk), this fabric is resistant to oils, solvents and most chemicals. However, direct contact with the steam should be avoided.

Specifications

Technical Data

Temperature	650°C (1200°F)
Weight	33 oz/yd ²
Thickness	0.055"
Width	40"
Length	55 yd/roll
