FIBERGLASS

TXP2006W

Description

The TXP 2006W exhibits a great resistance to long term exposure to high temperatures without degradation. Its ability to withstand molten metal splash and flame penetration has been enhanced by recent developments in the Weldstop® finish.

Applications

Welding & stress blankets and curtains
Insulation gasketing and pads
Safety clothing (aprons and mitts)
Pipe wrap and expansion joints

Specifications

Technical Data

Temperature	Continue: 400°C (750°F), Short period: 1500°C (2730°F) (Molten metal splash)
Weight	66 oz/yd ²
Thickness	0.102"
Width	40"
Length	25 m/roll
